

(Urban Lifesavers is a NFP & registered charity focused on raising awareness about sudden cardiac arrest and public access to automated external defibrillators for bystander use)

## Defibrillators save lives: how you can help to get someone in **sudden cardiac arrest**:

### MAKE A DONATION TO THE AED FUNDRAISER FOR

[NAME OF FUNDRAISING ORGANISATION OR LOCATION]

<MyCause unique hyperlink to fundraising hub>

During sudden cardiac arrest, minutes matter to save a life and bystander use to an automated external defibrillator (AED) before the arrival of emergency services dramatically increases the casualty's likelihood of survival.

Urban Lifesavers is proudly in partnership with the MyCause crowdfunding platform to assist your local community group, retail, business network to raise \$2,950 for an AED in your local area with your own unique AED mini-fundraising campaign through. (Use the MyCause hyperlink provided above.)

Encourage your family, friends, clients, customers & traders to support the installation of an AED in your locality with their donations. All contributions of \$2 and above are tax deductible.

Once the target of \$2,950 has been reached, Urban Lifesavers will supply a **Cardiac Science Powerheart G5 Automated External Defibrillator** including adult & paediatric pads, carry sleeve, rescue utility kit, signage & wall bracket.
